

COPS IIT(BHU) Presents

# **COPS** **WEEK**

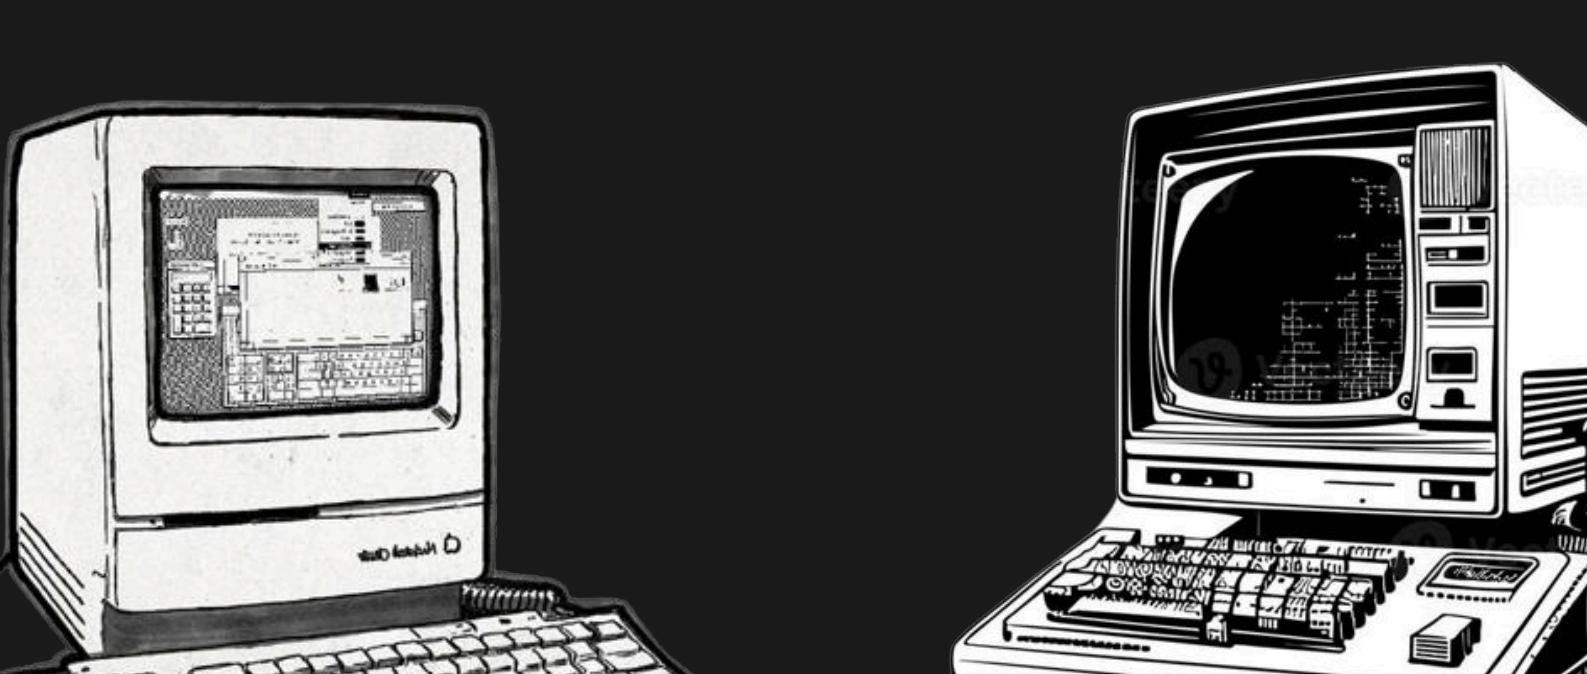

16 February - 23 February 2025

## **Sponsor Brochure**

# ABOUT COPS WEEK

Every year the Club of ProgrammerS (COPS), IIT(BHU), Varanasi, India organizes COPS Week, a flagship 7 day event covering contests, hackathons, guest talks across various domains of Development, ML and AI, Competitive Programming and Cybersecurity. Seeing an awesome response from the college community, we have decided to make COPS Week 2025 an international event, giving an enriching experience to not only our college but also all learners and explorers across the globe for free!

# Events

**Ctrl+Shift+Intelligence**

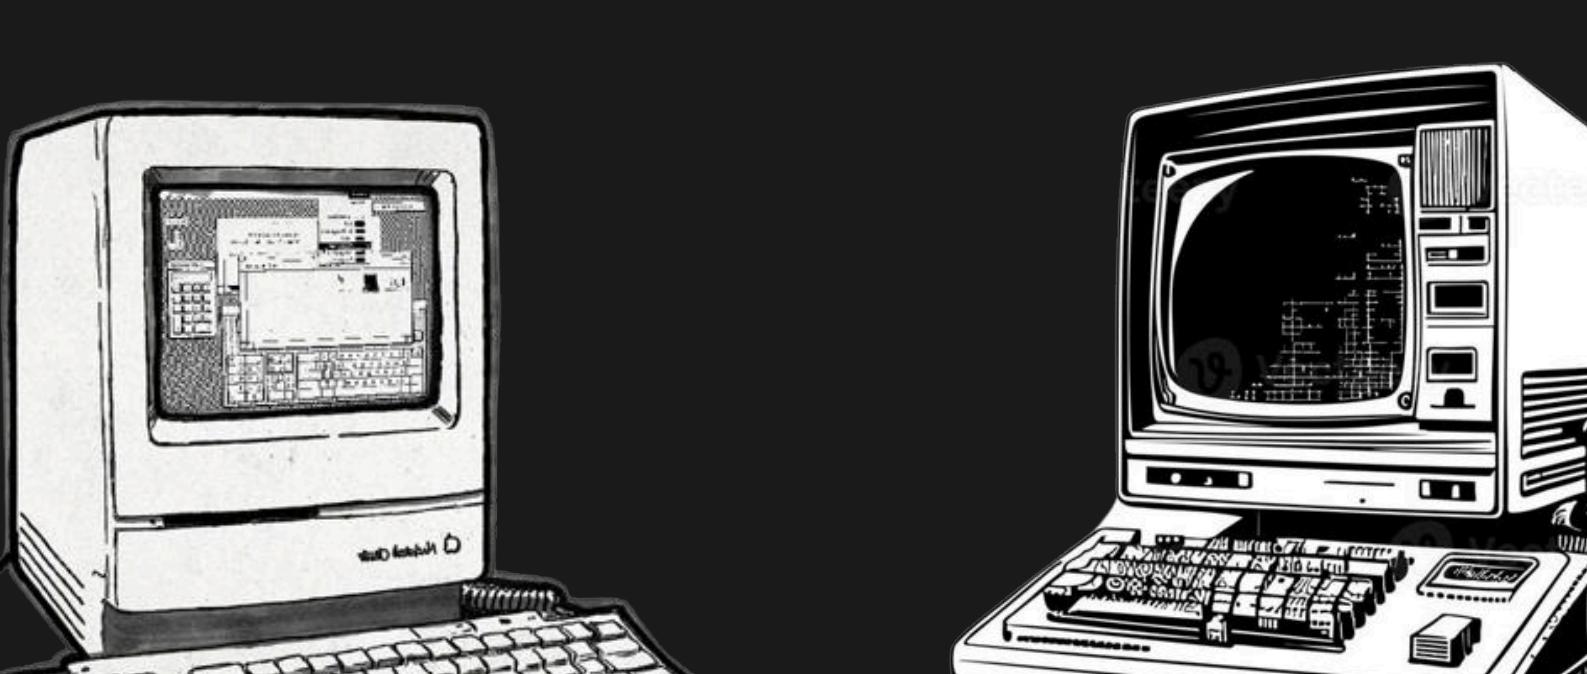

Machine Learning

**DebugIt**

Software Development

**Kashi CTF**

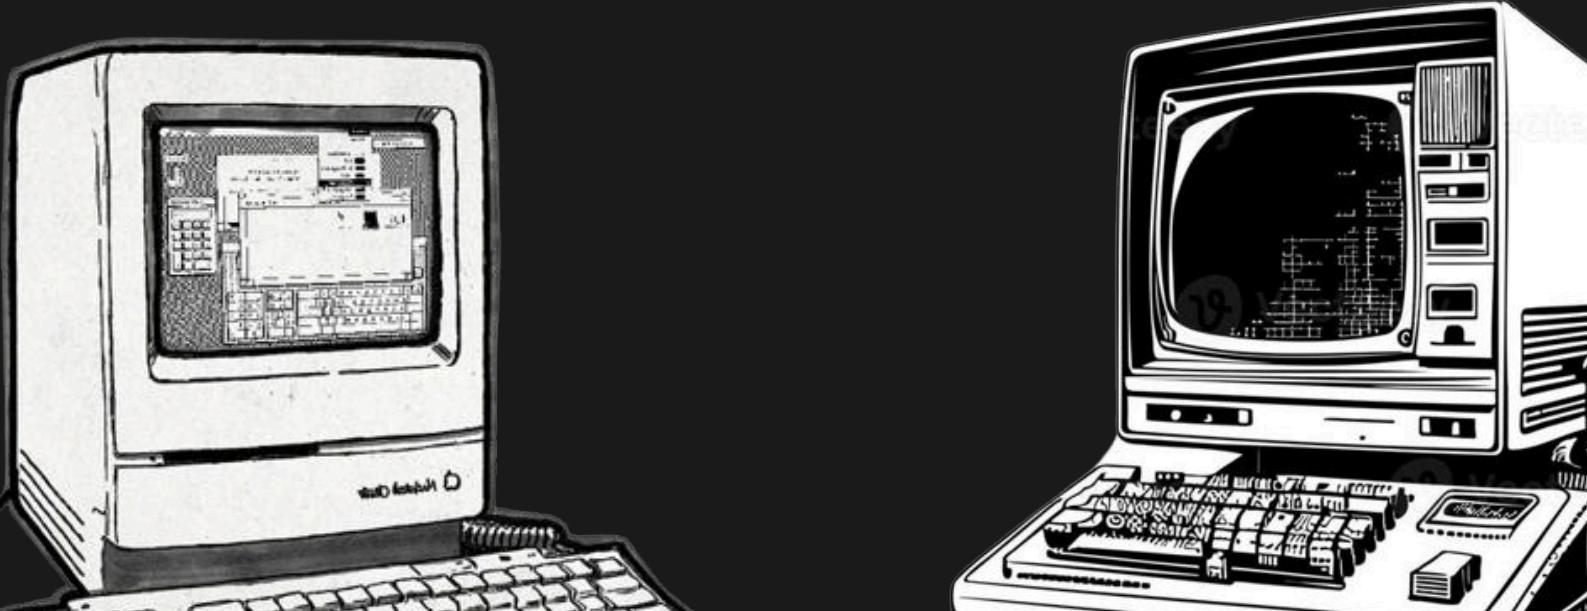

Cybersecurity

# Ctrl+Shift+Intelligence

**Ctrl+Shift+Intelligence**, organized by COPS IG (Intelligence Guild), is our inaugural international ML hackathon challenging enthusiasts at every level. Over three days, participants will dive into cutting-edge areas like computer vision, NLP, RL, and data science.

COPS IG is the intelligence community at IIT (BHU), fostering innovation through workshops, developer talks, and hackathons. Our members publish in top AI conferences, intern at leading universities, and secure major wins across machine learning and artificial intelligence competitions.

# DebugIt

DebugIt 2025, organized by COPS SDG (Software Development Guild), is the first edition of our annual international software development hackathon, designed to challenge intermediate to advanced developers while ensuring beginner-friendly problem statements across various domains in a 3-day format.

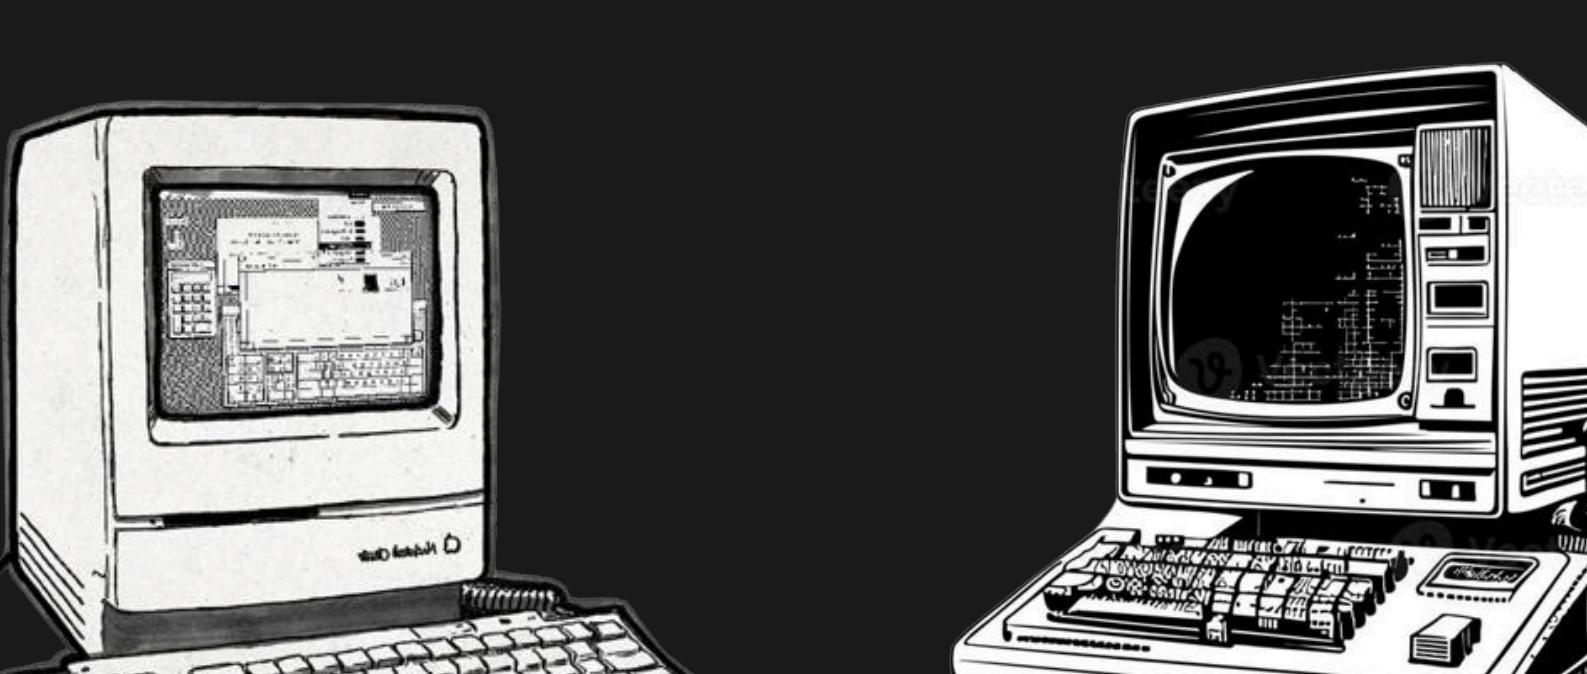

COPS SDG, the software dev community at IIT(BHU), fosters innovation through projects, hackathons, and workshops. With Second highest GSoC acceptance in Asia and winners at multiple Web3 hackathons like ETHSingapore, ETHIndia, COPS SDG is at the forefront of Software development.

# Kashi CTF

Kashi CTF 2025, organised by IIT(BHU)CyberSec, is the first edition of our annual international CTF, designed for intermediate to advanced players while ensuring beginner-friendly challenges across all categories in a 24-hour format.

IIT(BHU)CyberSec, the official academic CTF team of IIT(BHU) and part of COPS, organises and competes in CTFs while hosting cybersecurity workshops and events. Ranked in India's Top 10 and currently 6th on CTFTime (2024).
